ALPHA 4 GOLD pagers

APPLICATIONS

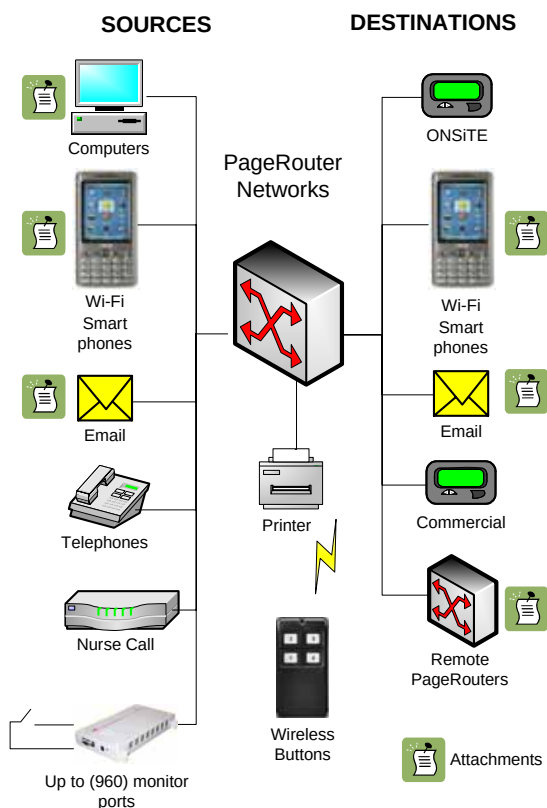

- Hospitals
- Nursing Homes
- Refineries
- Mines
- Retail Stores
- Hotels and Resorts

MESSAGE MANAGEMENT

Send messages from unlimited network computers, Nurse Call systems, Medical and Industrial Monitors, PLCs, SCADA, touch-tone telephones and from remote PageRouters. Users log into the built-in **WebPager** Message Management application to:

- Send messages to individuals, Groups and Departments.
- Organize and **page users by Departments.**
- Create and change unlimited **Groups** with drag-and-drop action on a web page map. **React quickly to emergencies.**
- **Schedule messages** to be sent at a future date and time.
- Program unlimited **text canned messages** for individuals or Departments for fast message entry.
- Quickly **attach one or more files** to a message.
- View logs of "**sent**" and "**received**" messages and open corresponding attachments.
- **Forward** received messages with attachments.

OPTIONAL CONFIGURATION

People log into WebPager using a browser to send messages from unlimited computers via the Intranet or the Internet.

CANAMEX COMMUNICATIONS CORPORATION

200 RIVIERA DRIVE, MARKHAM, ONTARIO, L3R 5M1, CANADA TEL: (905) 475-5557 FAX: (905)-475-5568

OPTIONAL FEATURES

PageRouter is delivered with WebPager to send messages from UNLIMITED computers using a browser. There is no need to install special "client software", pay for "seats" or for the number of network computers.

Choose features to suit your application and save money by buying only what you need, when you need it.

- **User profile capacity:** 10, 25, 50, 100, 200, 500, 1000, 2000, 3000, 5000, 10000.
- **ONSITE paging:** Use Canamex DigiPager Wireless paging encoders. Contact Canamex to determine adequate transmitter power.
- **SENTINEL:** Automatic onsite retransmission of lost messages and onsite transmission over-the-air confirmation.
- **Dialup:** Send messages to up to (32) commercial paging companies via a dialup telephone connection.
- **Radio:** Send text-to-voice canned messages to people with two-way radios.
- **SMTP Outbound email:** Send email messages to Blackberrys, cellular phones and mailboxes.
- **POP3 Inbound email:** Send email messages to onsite pagers.
- **SNPP:** Send messages to commercial paging companies via an Internet connection.
- **Remote PageRouters:** Send messages to other locations using PageRouter systems.
- **DigiPager Link:** Send messages via the Intranet or the Internet to remote locations for onsite pagers.
- **Mobile:** Send encrypted messages to Wi-Fi devices.
- **Attachments:** Send messages with attachments to Wi-Fi devices and email destinations.
- **PageAlert:** Send programmable canned messages triggered by **PageAlert** contact monitor modules and/or wireless buttons. **Monitor alert events at multiple remote locations** with DigiPager Link.
- **COM PORTS:** Add inbound COM ports to connect multiple message sources using TAP protocol.

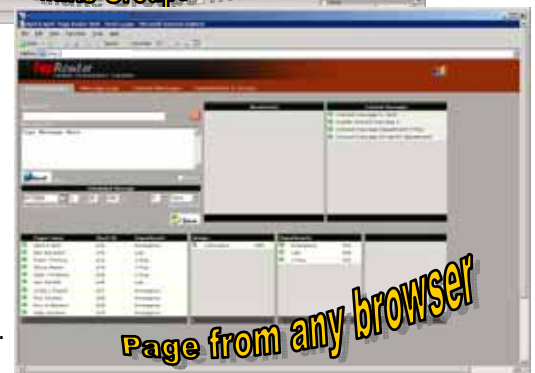

Basic PageRouter HARDWARE

PageRouter is **extremely reliable and easy to use**. We will configure your PageRouter with one or **multiple options depending on your application**.
