

PageRouter Easy Messaging

ALPHA 4 GOLD pagers

PageRouter is delivered with WebPager to send messages from UNLIMITED computers using a browser. There is no need to install special "client software", pay for "seats" or for the number of network computers.

Do you want to send messages to your staff from wherever you are via the Internet? We can tell you how to setup PageRouter to send messages from the Internet with 100% access security.

MESSAGE MANAGEMENT

With the basic PageRouter, users log into the built-in **WebPager Message Management** application to:

- Send messages to individuals, Groups and Departments.
- Organize and **page users by Departments**.
- Create and change unlimited **Groups** with drag-and-drop action on a web page map. **React quickly to emergencies.**
- **Schedule messages** to be sent at a future date and time.
- Program unlimited **text canned messages** for individuals or Departments for fast message entry.
- View logs of "sent" and "received" messages.
- **Forward** received messages.

User can view Names, Groups and Departments according to permission on the User profile

OPTIONS

PageRouter offers options to send messages from Nurse Call systems, Medical and Industrial Monitors, PLCs, SCADA, touch-tone telephones, from third-party applications and from remote PageRouters. Other options allow you to send messages to cellular phones via email, to commercial pagers and to your remote locations to page people onsite. With the **PageAlert** option, PageRouter can monitor over 1,000 contacts or respond to alerts from wireless buttons.
