

Critical messages in seconds!

- Send messages from unlimited network computers using a browser.
- Page using touch-tone telephones.
- Page messages from your existing Nurse Call System, Patient Management System and from other sources.
- Send messages to email addresses, Blackberries, commercial pagers and cellular phones.
- Create and manage unlimited Groups and Departments with Drag-and-Drop operation.
- Print and export message Logs.

PageRouter is the next generation of paging management technology allowing proactive Hospitals to deliver and confirm transmission in a few seconds while integrating onsite-offsite messaging.

EASY TO INSTALL

- PC delivered with PageRouter software loaded.
- Install antenna indoors or on the roof. Antenna tower not needed.
- Connect the PageRouter PC to your network and assign it an IP address.
- Optionally, program Users, Departments and Groups from any network computer.
- Send messages to staff with onsite pagers at remote locations using **DigiPager Link** equipment. Create your own network. *Ask for the DigiPager Link brochure.*
- Send messages to remote locations with Canamex onsite paging equipment. Create your own network.
