PageRouter Pro

The Next Generation of Message Management Technology

Messages to Commercial Pagers

PageRouter Pro is delivered with WebPager to send messages from UNLIMITED computers using a browser. There is no need to install special "client software", pay for "seats" or for the number of network computers.

List of canned messages

MESSAGE MANAGEMENT

With the basic PageRouter Pro, users log into the built-in **WebPager Message**Management application to:

- Send messages to individuals, Groups and Departments.
- Create and change unlimited Groups with drag-and-drop action on a web page map. React quickly to emergencies.
- Schedule messages to be sent at a future date and time.
- Program unlimited canned text messages for individuals or Departments for fast message entry.
- View logs of "sent" and "received" messages.
- Forward received messages.

User can view Names, Groups and Departments according to permission on the User profile

MANAGING DEPARTMENTS AND GROUPS

Use simple drag-and-drop action to organize staff by Departments and create unlimited Groups. A Group can have an unlimited number of people from the same or other Departments. The same programming screen is available on any network computer using WebPager with the **PageRouter Remote Programming** option.

PageRouter Pro

The Next Generation of Message Management Technology

FAILSAFE CONNETION TO PAGING COMPANIES

PageRouter Pro can connect to paging companies using the Internet, a direct telephone line or a dialup modem.

PageRouter Pro with **FailSafe** provides dependable message delivery to your paging provider by automatically switching between the internet connections (WCTP and SNPP servers) and the Dialup (TAP) connection in case of unexpected server disconnections. **Trust your Internet connectivity to provide reliable and faster commercial paging service.**

COMBINE ONSITE PAGING WITH COMMERCIAL PAGING

PageRouter Pro allows you to combine the options of Onsite paging with Commercial paging at any time. For example, you can have a number of onsite pagers for staff who work only at your location and commercial pagers for staff who travel around the city or the country. Programming is easily done on each user profile. The log shows the message destination with the date and time of transmission and the text of the message. *Messages to onsite pagers will be delivered in seconds!*

MULTIPLE SOURCES OF MESSAGES

PageRouter Pro can send messages from multiple sources such as Alarm systems, Medical and Industrial equipment (PLC/SCADA), when machine or equipment relay contacts close or open, wireless buttons, Nurse Call and Bed Management Systems and Switchboard Dispatch applications.

MESSAGE LOGS

PageRouter provides detailed logs of messages and overall, a very user-friendly operation.

FREE ASSISTANCE

Call 1-800-387-4237 for assistance to determine what the best way is to connect to your paging company. We can discuss how you can save money by combining onsite paging with commercial paging.
