Reliable OnSite Paging and Message Management

Another product by Canamex Communications Corporation

PageRouter Lite is delivered with WebPager, to send messages from UNLIMITED computers using a browser. There is no need to install special "client software", pay for "seats" or for the number of network computers. Messages delivered in SECONDS!

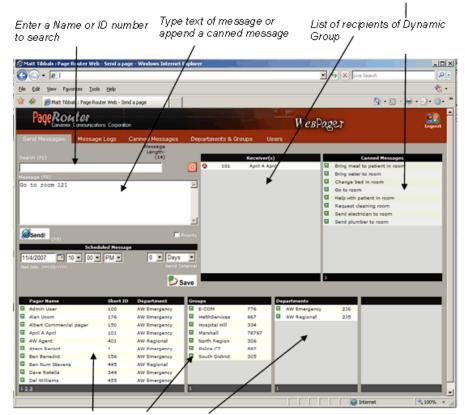

Use **PageRouter Lite** with existing onsite paging equipment or with new Canamex encoder and paging transmitters that comply with FCC bandwidth regulations. List of canned messages

MESSAGE MANAGEMENT

PageRouter Lite is delivered with the builtin WebPager Message Management application:

- Authorized Users can login to send messages to individuals, Groups and Departments.
- Administrators and Supervisors can create and change unlimited Groups with drag-and-drop action on a web page map from any computer. React quickly to emergencies.
- Users can schedule messages to be sent at a future date and time.
- Program unlimited canned text messages for individuals or Departments, for fast message entry.
- Users can view their log of "sent" and "received" messages.
- Users can forward received messages.
- And much more...

EASY TO BE UPGRADED

PageRouter Lite

The Next Generation of Message Management Technology

User can view Names, Groups and Departments according to permission on the User profile

PageRouter Lite offers the capability to be easily upgraded to **PageRouter Pro** and **PageRouter Enterprise**, allowing you to adapt to changing paging operations. For example, you can expand to sending messages from Nurse Call systems, Medical equipment, touch-tone telephones, and from third-party applications. You can also expand to send messages to mobile devices.

MANAGING DEPARTMENTS AND GROUPS

Organize staff by Departments (shown in blue boxes). For each Department, create unlimited Groups (shown in pink boxes), with unlimited number of people (yellow boxes) from the same or other Departments. Simply drag and drop boxes to make a connection. For example, to create a new Group for the Emergency Department takes a few seconds.

PageRouter Lite provides a Master Log with the detail of each message such as date and time of transmission, who sent the message from computers using WebPager, the name of the recipient and the text of the message. You can filter the log information by date and time and export it in excel or PDF

Example of a PageRouter Lite OnSite Paging System consisting of a computer, a DigiPager Wireless transmitter and a wall mount, internal antenna.
