## Secure, instant messages using computers

### What is TeraChat?

- TeraChat enables computer users to establish secure, instant chats with smartphone and tablet users running the TeraMessage app, as well as with other TeraChat users.
- TeraChat is ideal for staff without a wireless device that needs to exchange text messages with TeraMessage Mobile personnel.
- With TeraChat, computer users can be reached quickly and easily at their computer, to engage in two-way, instant chat with other users.
- All TeraMessages sent and received when using TeraChat, are protected, automatically, **by high-level encryption**.
- Convenient features maximize user experience. TeraChat is sure to be effective and productive by establishing a secure, instant text communication with other users.

### TeraChat features

- Accessible through WebPager; no additional software required.
- View online status of other TeraChat and TeraMessage Mobile Users.
- Automatic message read confirmation.
- Optional audio to announce incoming messages.
- Logs the full details of all TeraChat message traffic.
- One TeraChat user can have independent, simultaneous conversations with other TeraChat and TeraMessage users.

### Services

**Installation:** TeraChat requires the installation of PageRouter Enterprise software in a server computer, which should comply with PageRouter's operation requirements.

Canamex will take care of the installation details and the start-up of your TeraChat solution. We will work together with you in determining the best possible work agenda based on your specific requirements.

**Training:** We will provide training to your technical and operations personnel, to become familiar with programming and operation of TeraChat.

**Support:** Canamex offers excellent product support after installation and start-up. We will do our best to provide you with peace of mind 24/7/365, year after year.
